# SSHOC-CH "National Infrastructure Roadmap" Info Event

Publication Date: 2024-11-26

**SERI and swissuniversities have launched the process for the Swiss Roadmap for Research Infrastructures 2027**. The Swiss Roadmap for Research Infrastructures is a report on the status and development of national and international research infrastructures. The roadmap process is highly relevant for all national projects seeking long-term institutionalization.

SSHOC-CH organizes an event with participation from SERI and swissuniversities **to inform the SSH community about the roadmap process and to answer questions.**

**Time**: Wednesday 11 December 2024
(13:00-14:00)

**Location**: Zoom

**Please register to the event**: https://forms.gle/36yhEBqQzV6WMA2X6

During the event, we would also like to include a slot on informing about **potential submissions from the SSH domain**. If you wish to share this information with others, please submit information on potential project proposals (Titel/topic as well as institutions and people involved) until 9 December to Georg Lutz. This will allow us to inform participants about the ongoing efforts.

**Summary of the process outline** (as explained on the swissuniversities webpage)

- End of 2024 - Start of the process: swissuniversities contact HEI's research vice-rectors and institutional contacts about the 2027 Roadmap process, who are responsible of informing their

institutions about the details of the process

- <u>March 2025 - Phase A Coordination</u>: research vice-presidents use opportunities of coordination; early establishment of consortium structures.
- <u>May-August 2025 - Phase B Prioritisation</u>: research vice-presidents prioritise two-page proposals and make recommendations to the responsible bodies of swissuniversities; if necessary, the prioritisation leads to sensible merging of projects at the earliest possible stage.
- <u>Second half of 2025 - Phase C Pre Selection</u> : research vice-presidents pre-select projects and give a recommendation to the responsible bodies of swissuniversities on which projects should be submitted for the Roadmap.

**Relevant documentation:**

- Link to SERI website
- Link to swissuniversities website where the you can download all the relevant documents, such as the process outline, the selection criteria and the template for phase A
