

# Public EU Consultation on a European Strategy on Research and Technology Infrastructures

Publication Date: 2025-05-05

**The European Commission has initiated a public consultation** on a new “European Strategy for Research and Technology Infrastructures”, according to an announcement from the Swiss State Secretariat for Education, Research and Innovation (SBFI).

## About the strategy

A key objective of the strategy is the further **development and strengthening of Europe's ecosystem of research and technology infrastructures**, which serve as critical foundations for innovation and scientific advancement.

The aim of the consultation is to **gather more information about the functioning and sustainability of the European research and technology infrastructure landscape**. This includes the issues and challenges involved in strengthening the ecosystem of these infrastructures, as well as possible solutions.

## Stakeholders are invited to address the following specific questions:

- Do you agree with the identified main problems and needs for the European Strategy on Research and Technology Infrastructures ?
- Are there any additional challenges faced by research infrastructures and technology infrastructures that a European strategy should address, especially in relation to Europe's main competitors?
- Does the proposed set of actions adequately address these issues? Would other actions be needed at EU level?

**Interested parties can participate in the public consultation, which runs from April 24 to May 22, 2025.**

The European Commission plans to publish the finalized strategy in the third quarter of 2025. Additional information about technology infrastructures is available on the [European Commission's website](#).
